PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of experience building accessible, responsive web applications using HTML5, CSS3, JavaScript, and jQuery, with additional full-stack experience in Node.js and React.js for CRM and enterprise applications. Skilled in WCAG 2.1 accessibility compliance, cross-browser compatibility, REST API integration, and performance optimization. Experienced across the full SDLC, from requirements analysis to live deployment, in Agile environments.

WORK EXPERIENCE

Frontend Developer

April 2026 – September 2026

Infopro Learning, Inc.

Noida Sector 142, India

- Developed and maintained WCAG 2.1 compliant web interfaces using HTML5, CSS3, JavaScript, and jQuery, ensuring accessibility for users with disabilities.
- Built and enhanced cross-browser UI components for live CRM and enterprise applications.
- Implemented DOM manipulation and dynamic UI behaviour with jQuery to improve interactivity and user experience.
- Optimized frontend performance through efficient JavaScript and CSS practices, improving page load and rendering speed.

MERN Stack Developer

January 2025 – March 2026

JPR Technosoft Ltd

West Noida, India

- Developed responsive web applications using React.js with a focus on component reusability.
- Built and integrated RESTful APIs with Node.js/Express.js for dynamic data handling.
- Implemented role-based access control (RBAC) and Redux state management for complex workflows.
- Integrated Razorpay payment gateway, OTP verification, and email notification services.
- Collaborated with cross-functional teams to deliver production-ready features for enterprise clients.

EDUCATION

Bachelor of Technology, Computer Science Engineering

2021 – 2025

Sunder Deep Engineering College, Ghaziabad

CGPA: 7.29

TRAINING

Python Full Stack Development Training

2024

Ducat, Ghaziabad

KEY PROJECTS

Wizly – E-commerce Platform / MERN Stack, Redux, Tailwind CSS, Razorpay — 2025

- Full-stack e-commerce platform with admin panel using MERN stack and Redux.
- Managed product inventory, discounts, and dynamic CMS with MongoDB for data persistence.
- Integrated Razorpay payment gateway, cart system, and order tracking for 1000+ users.

Millio – Task & Workflow Management System / MERN Stack, Redux, Tailwind CSS — 2025

- Built an internal task workflow system with RBAC and audit history tracking.
- Designed scalable backend services using Node.js/Express.js and MongoDB.
- Implemented real-time updates and collaborative features for team operations.

MingoBite – Food Platform / MERN Stack, Redux, Tailwind CSS, Razorpay

- Complete CRUD functionality for Users and Restaurant records with Node.js and MongoDB.
- Razorpay payment integration with cart management and real-time order status updates.
- Responsive UI using Bootstrap and Tailwind CSS with efficient database operations.

DNA Admin Panel / React.js, Tailwind CSS

- Admin dashboard for medical education platform managing students, teachers, and courses.
- Reusable React components with Axios API integration and React Router navigation.
- Implemented data filtering, search, and pagination for efficient content management.
